

## KSTP/KSGS Oh No Traffic Conflict Again - Hybrid Event

The Downtown St Paul (Hollman) and South St Paul (Fleming) airports have uncommonly high instances of near-traffic conflicts, airspace violations or near-airspace violations. Come join us on Sept 25 in-person or virtually to understand risks and best practices when flying in and around the area. KSTP controllers and a member of the FAA FAASafetyTeam will be sharing some scary near-collision examples and some airspace oops' from the area that have earned some pilots a phone number. All of these can be avoided with some suggestions on traffic routes, talking to STP tower and / or helping spread the word. This is a must-attend if you ever fly to either of these airports or the east side of the MSP bravo area.

If you would like to attend the virtual session please register here. [Register for Virtual Presentation](#)

To attend the in-person seminar at the South St. Paul airport, please register below at [faasafety.gov](http://faasafety.gov). It is in the larger conference room just inside the FBO.
