

Saturday Morning Coffee and Wings - One Last Look

Join us for A VIRTUAL cup of coffee, a donut, and a LIVE WEBINAR as we look at the often overlooked art of the helicopter preflight. We'll explore real-world scenarios where a careful eye can make the difference between a safe flight and a costly oversight. Using accident case studies, practical tips and best practices, this session will highlight how a disciplined preflight routine helps catch the "small things" before they become big problems.

Aviation safety will be discussed, and is central to the content of this presentation.

Many of our sessions are recorded and can be viewed on our YouTube channel, Saturday Morning Coffee and WINGS. Credit is not available if viewing the recording. Here is a link:
