

Pro Tips for Maintenance - Aircraft Accidents

Behind every aviation accident is a chain of seemingly minor decisions that led to major consequences. The Federal Aviation Administration Office of Accident Investigation and Prevention shares powerful real-world case studies and data-driven insights that expose how small mistakes make for big problems. Learn how professionalism, disciplined maintenance, and participation in programs like the FAA WINGS Program can dramatically reduce your chances of becoming the next statistic.

Inspection Authorization renewal credit is available for this presentation.
