

Saturday Morning Coffee and WINGS - When VFR Stops Working

Join us for a VIRTUAL cup of coffee, a donut, and a LIVE WEBINAR!

VFR-into-IMC accidents rarely begin with a single bad decision. Join Chris Baur for an interactive look at how deteriorating weather, terrain, darkness and changing conditions can progressively eliminate a pilot's options—and how better preflight and inflight decisions can break the accident chain before an emergency develops.

Chris will also remind us of the availability and importance of the Peer Pilot Program

Aviation safety will be discussed, and is central to the content of this presentation.

Many of our sessions are recorded and can be viewed on our YouTube channel Saturday Morning Coffee and WINGS. Credit is not available if viewing the recording.
