

South Bend FSDO FAASTeam presents:

## **La Porte Aero Club - FAA Aviation Seminar**

This will be a 2 hour seminar beginning at 6:00PM CST. There will be 2 topics of special importance in aviation maintenance and operations. The first part will cover how to effectively operate safely in controlled and uncontrolled airspace. We will identify hazards responsible for errors that commonly occur while performing general aviation operations. During the second hour, there will be a discussion regarding the ongoing aging aircraft problem. We will review what the aircraft manufacturers are doing to address the problem in coordination with the Federal Aviation Administration and various industry work-groups. Please join us for this dynamic and interesting presentation.

**Directions:** The La Porte county Municipal Airport is located three miles south of the central business district of La Porte Indiana. See attached map or call Neil Straub for directions.

**A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
