

SBN ATCT and SBN FSDO FAASTeam presents:

South Bend International Airport Local Runway Safety Meeting

SBN Airport Users,

Runway incursions remain a serious concern nationally. One important component of our ongoing efforts to improve surface safety at SBN Airport involves conducting a Runway Safety Action Team (RSAT) meeting at least once each year. In conjunction with airport management, we will be conducting a local RSAT meeting on August 27, 2014. The meeting is scheduled to occur immediately after the Airport Information Meeting (AIM) starting at 9:00AM. The location is the old Concourse C Hold Room in the Main Terminal Building.

The purpose of this RSAT meeting is to unite those individuals and organizations that are actively involved in air traffic operations and movement of aircraft, vehicles and equipment on the Airport Operations Area (AOA). We look for participation from all major airport interests including tenants, fixed base operators, airport operations and maintenance personnel. Participants are asked to help develop recommendations and solutions to enhance surface safety. Those recommendations serve as the foundation for a site-specific Runway Safety Action Plan. You are cordially invited to join us.
