

## FREE Proficient Pilot Seminar - Evolution of Avionics

Please join us for our next WINGS, FAASTeam training event. We will be discussing the evolution of avionics. Brian will take us through an interesting story of avionics history, from the world of avionics in the early 1900's to how they have developed over the past 100 years. He will explain various components and systems and how they are used to improve cockpit safety. As a bonus, Brian will also give us some insight to the upcoming improvements - to include how the ADS-B system will enhance safety to the next level.

**Directions:** This event will be hosted by Sweet Aviation in the terminal building at the Smith Field Airport in Fort Wayne, Indiana.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASteam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
