

BMI Controller Forum

BMI Air Traffic Manager Michael Eppley will be on hand to discuss upcoming changes at BMI in connection with the new hangars on the south side of Runway 11/29 and other operational issues at the airport.

This forum is an excellent opportunity for pilots, ATC and other aviation professionals to engage in open dialogue, share experiences, and collaborate on improving operational safety and efficiency at BMI. We encourage participation by pilots, flight schools, flight instructors, aviation businesses and anyone else interested in the local airspace.

Whether driving or flying, park at Synergy Flight Center (FBO) and proceed to Hangar F15 which is located at the north end of the parking lot. It is the last hangar on the first row of T-hangars.

A message from the National FAASTeam Manager
