

EAA Chapter 129 VMC Club Meeting

Please join us Saturday morning, November 8th. Breakfast is served from 7-9 am in the hangar, followed by the VMC Club program at 9:00 am. All are welcome. After revealing the answer to the Question of the Month (QoM), we will watch a short scenario video.

This month, the QoM involves Supplemental Type Certificate (STC) paperwork that is required to be in the aircraft. For example, installing different avionics would involve an STC and a 337 major alteration form in the logbook. We will review the differences and what you need to look for in the paperwork.

The scenario involves a pilot practicing night emergency landings. Our discussion will focus on risk mitigation and techniques to improve your ability to deal with these emergencies.
