

EAA Chapter 770 IMC Club and Instrument Refresher

Please join us Thursday evening, December 11th at 6:30pm for EAA Chapter 770's IMC Club/Instrument Refresher program. All are welcome whether you are an instrument rated pilot or not.

This program will provide a review of IFR Low Altitude Enroute Charts, including a partial review of some of the regulations governing IFR navigation. It is intended as a refresher for those who are already rated, an introduction to instrument flight for prospective instrument students, and additional safety knowledge for student and private pilots. All are welcome.

We will be referencing the current edition of the FAR/AIM, FAA instrument Procedures Handbook, and FAA Chart Users Guide. All of these can be viewed or downloaded for free from the FAA website if you choose.
