

EAA Chapter 770 IMC Club and Instrument Refresher

Please join us Thursday evening, February 12th at 6:30pm for EAA Chapter 770's IMC Club/Instrument Refresher program. All are welcome whether you are an instrument rated pilot or not.

This program will provide a review of instrument approach charts including the data presented on the charts and the considerations involved in providing terrain and airspace protection for the aircraft flying the approach. It is intended as a refresher for those who are already rated, an introduction to instrument flight for prospective instrument students, and additional safety knowledge for student and private pilots. All are welcome.

Stellar Aviation Conference Room
