

EAA Chapter 770 VMC Club Meeting

Please join us Tuesday evening, March 3rd at 6:30pm for EAA Chapter 770's VMC club meeting. After revealing the answer to the Question of the Month (QoM), we will watch a short scenario video and then have a review of the *WINGS* program.. This month, the QoM is still to be announced. The scenario involves an aircraft experiencing total electrical failure shortly after takeoff. For additional topics, we will discuss using the *WINGS* program for a flight review equivalent and navigating the Flight Tasks (by request from the group). We will also explore the differences in information presented by several sources of airport information, and how to use this data to avoid unwelcome surprises.
