

EAA Chapter 129 IMC Club

Veteran AirVenture presenter, **Will Eastman**
- CFII, will be hosting this month's IMC meeting
with a presentation on ADM.

Does your safety plan end when the wheels leave the pavement? Many pilots treat the checklist as a mechanical "to-do" list, but its true value lies in providing a structured framework for intentional Aeronautical Decision Making (ADM) and Risk Analysis.

Join Will to learn how to move beyond rote memorization and embrace repeatable processes designed to trap errors before they become accidents.

Core Focus:

- **Science of ADM:** Reduce judgment errors by up to 50%.
