

EAA Chapter 770 IMC Club and Instrument Refresher

Please join us Thursday evening, March 12th at 6:30pm for EAA Chapter 770's IMC Club/Instrument Refresher program. All are welcome whether you are an instrument rated pilot or not.

The last program provided an introduction to Instrument Approach Procedures (IAPs). This program continues that discussion, delving more deeply into different types of approaches and the additional information that is conveyed on the IAPs. We will explore ILS/LOC approaches, DME arcs, arrival procedures, and much more. This is intended as a refresher for those who are already instrument rated, an introduction to instrument flight for prospective instrument students, and additional safety knowledge for student and private pilots. All are welcome.
