

EAA Chapter 770 IMC Club and Instrument Refresher

Please join us Thursday evening, April 9th at 6:30pm for EAA Chapter 770's IMC Club/Instrument Refresher program. All are welcome whether you are an instrument rated pilot or not.

We will continue discussing precision vs non-precision approaches including GPS approaches. This is intended as a refresher for those who are already instrument rated, an introduction to instrument flight for prospective instrument students, and additional safety knowledge for student and private pilots. All are welcome.
