

## EAA Chapter 770 IMC Club and Instrument Refresher

Please join us Thursday evening, May 14th at 6:30pm for EAA Chapter 770's IMC Club/Instrument Refresher program. All are welcome whether you are an instrument rated pilot or not.

Our instrument refresher topic will be a review of approach lighting systems with regard to determining if you have the minimums for the approach, and how to use these systems to effectively transition for the landing in low IFR..

We also have guest speaker Nick Loftus presenting a review of the FAA's Dynamic Regulatory System (DRS) which is a new comprehensive knowledge center that includes all regulatory guidance material from the Office of Aviation Safety. Join us to learn about this new tool.

Stellar Aviation Conference Room
