

## EAA Chapter 770 VMC Club Meeting

Please join us Tuesday evening, July 7th at 6:30pm for EAA Chapter 770's VMC club meeting. After revealing the answer to the Question of the Month (QoM), we will watch a short scenario video. This month, the QoM is on scanning for traffic with ADS-B. The scenario involves a pilot performing the first flight in a Cessna 210 after maintenance. Landing gear issues are a problem in this scenario, but we will also discuss general considerations for flying an aircraft that has just been returned to service.

Stellar Aviation Conference Room
