

EAA Chapter 770 VMC Club Meeting

Please join us Tuesday evening, August 4th at 6:30pm for EAA Chapter 770's VMC club meeting. After revealing the answer to the Question of the Month (QoM), we will watch a short scenario video. This month, the QoM is on land and hold short clearances. The scenario involves pilots flying an aircraft that they are not completely familiar with. Discussion will cover dealing with this type of situation and how it affects decision making and your personal minimums. The unfamiliar aircraft may be perhaps an older model of something you have flown, something with different avionics, or different equipment than you are used to.
