

EAA Chapter 563 VMC Club

This Sunday, August 23rd, at 6:30 p.m., please join us in the EAA 563 hangar for our VMC Club's monthly scenario review! We will review a proposed flight in which a pilot attempts to visit family members at multiple airports hundreds of miles apart, navigating the July convective season in the Midwest. Key elements of discussion include alternate airports, frontal activity, and external pressures. Additionally, we will review our EAA Question of the Month and answer. Attendees are eligible for Knowledge Topic 1 WINGS credit.

The meeting will be held in the EAA chapter hangar #57 on the south side of the field. Attendees who are not chapter members should contact the event coordinator for gate access and directions from the FBO. Fly-in traffic can park on the tees next to the FBO and contact the coordinator for an escort down to the hangar.

A message from the National FAASTeam Manager

Earn your WINGS to get a chance to win a prize. Go to <https://www.wingsindustry.com/WINGS-Sweepstakes> for more info. Join us
