

EAA Chapter 770 VMC/IMC Club Meeting

Please join us Tuesday evening, October 6th at 6:30pm for EAA Chapter 770's VMC/IMC club meeting.

We are changing the format to include IMC topics and additional scenarios. The IMC topics will include information on how this can be used to enhance safety for VFR pilots. After revealing the answer to the Question of the Month (QoM), we will watch a short scenario video. This month, the QoM is on flight tracking using flight following and VFR flight plans with position reporting. The scenarios will involve airports with obstructions nearby and using the published information to avoid those obstructions.

Stellar Conference Room
