

EAA Chapter 770 VMC/IMC Club Meeting

What would you do if your forward vision is suddenly obscured? Come join the discussion on possible ways to deal with this situation.

Please join us Tuesday evening, November 3rd at 6:30pm for EAA Chapter 770's VMC/IMC club meeting.

Our new format includes both VMC and IMC topics. After revealing the answer to the Question of the Month (QoM), we will watch a VFR scenario video involving a pilot whose windshield is suddenly obscured and the decisions he must make in order to land safely. Our IFR topic, by request from attendees is different methods of instrument scanning for effective aircraft control.

All are welcome.
