FAASTeam presents:

EAA Chapter 770 VMC/IMC Club Meeting

VMC into IMC is a major cause of accidents. Im this program we will examine a scenario where a pilot encountered this situation and where the old advice of "make a 180 degree turn" was insufficient. we will explore what to do once in this situation, how to recognize the various ways that we creep into this and strategies to avoid it.

The IMC portion of this program will be a review of various types on non-precision approaches and the differences in design and minimums associated with them.

Please join us Tuesday evening, December 1st at 6:30pm for EAA Chapter 770's VMC/IMC club meeting. Our new format includes both VMC and IMC topics.

All are welcome.
