

Double-Header: (1) Flying with an iPad (2) KFAR Land and Hold Short Operations

There is a compelling argument in favor of using the Apple iPad as an EFB. With a stable operating system, excellent battery life; touch interface; a growing number of apps; and superlative moving map GPS; it offers a great fit for many pilots. Also, Fargo has been approved for LAHSO. Bring your questions for ATC clarification.

Directions: Fargo Jet Center blue building, west door #2, upstairs.

A message from the National FAASTeam Manager

Over 136,600 pilots earned WINGS credits last year. Will you, this year?
