

It's all good, the benefits of flying into a Tower Controlled Airport

To a pilot that stays local most of the time, a trip to an airport that has a Control Tower can be a scary adventure. No worries! This event will discuss the airspace, operations in the air and on the surface at small and larger tower controlled airports, communications, and operations at night.

Controllers from the Fargo Airport Control Tower, will join this event in talking about the Fargo ATCT, the airspace around the Fargo area, and operations in the Class D controlled airspace.

Directions: From Interstate 94 take Exit 67 to 19th Ave. N. Continue East (right) toward the Fargo Dome to 16th Ave. N. on left. Go to the end of the street and turn left onto 23rd Ave. N. the old terminal building will be straight ahead. The EAA holds their monthly meetings in the North end of the Main Floor of the old terminal.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
