

North Dakota FAASTeam presents:

**Powder River MOA questions concerns nows the time
Thunderstorm season here we go**

Powder River MOA affects almost any flight heading across southwestern North Dakota, Eastern Montana, North Western South Dakota and Northern Wyoming. Lt Col Matt "Killjoy" Martin

Chief, Powder River Training Complex Initiative has requested an audience with users in the area to verify how the MOA has been affecting their travel. Good or Bad he wants to know.

Patrick Ayd, Fred Adams, and Jay Flowers will be discussing Thunderstorms and the risk based decisions necessary to safely maneuver these awesome powers of nature.

Given the time, we will finish out the night with "Performance Monitoring" what we need to be paying attention to with regards to the engine or just the aircraft in general.

Directions: South on University drive , take general aviation entrance just past Executive Air Taxi, Bismarck Aero Center is on the left (#53). Parking on South side near lobby entrance.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
