

North Dakota, South Dakota, East Michigan, Minnesota FAASTeams presents:

Weather and Icing - A look at critical thinking and flight planning

Making the airspace safer is not enough to lower the accident rate. Pilots must think more critically if they are to maintain the safety margins new technology has provided when we fly.

Partick Ayd, NWS forecaster out of Bismarck, ND, will discuss how critical thought flight planning can save your life.

Jay Flowers will discuss various terms, regulation, and best practice application in known icing type weather.

Directions: Please register for Weather and Icing - A look at critical thinking and flight planning on Sep 19, 2017 6:30 PM CDT at:

<https://attendee.gotowebinar.com/register/2612411425325952259>

Registration at the above link will give you access to the webinar only. Please register for WINGS credit as well at www.faasafety.gov.

Patrick Ayd, forecaster for the National Weather Service in Bismarck, ND and Jay Flowers, FAASTeam Program Manager for ND, will talk about weather and operations related to flight in icing conditions this coming season. After registering, you will receive a confirmation email containing information about joining the webinar.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
