

# CFI Open Forum - Flight Instruction - Proficient vs Competent Training

Proficiency is a constant nurturing of an action, thought, or process. Pilots need to be constantly refreshed if they are to remain proficient and not just competent.

**Directions:** From Highway 2 on the North Side of Williston, ND, go to the Williston Airport Main Terminal area. To the Right or North of the Terminal you'll find Overland Aviation across the street from the Candlewood Suites on the North Side of the big city hangar.
