

# Caring for your aircraft, Owner/Operator Responsibilities and Preventive Maintenance

Practical requirements on maintaining your aircraft, as well as a review and explanation of preventive maintenance.

Your local FAASTeam Airworthiness Program Manager and Designated Mechanic Examiner with A&P/IA, and pilot certificates offer this event.

**Directions:** From the Michigan Ave Exit 22 off I 275, travel west to the first stoplight, then north 1/2 mile to the MIAT Campus. Use the main parking lot to the south of the building, then enter through the south main entrance.

## A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
