

## 'Where's the Class 'F' Airspace?'

This seminar is a light hearted review of all the classes of airspace, chart selection and the nuances of airspace that most pilots either never knew or forgot. Things like: What is a VR route? How do you know when a restricted area is hot? How is that different from a "hot spot?" What does "objectionable" mean on chart? When is the best time to buy a chart?

**Directions:** Airport Terminal Building.

### **A message from the National FAASTeam Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.

### Event Details

**Tue, Oct 15, 2013 - 6:00 pm**

**Boyer City Airport**

1040 E. Main St

Boyer City, MI 49712
