

Indoor Airport Communications Workshop with PTK ATC Tower

Event Details

Mon, Dec 18, 2023 at 09:30 EST

Corbin Aviation

6320 Highland Rd

Hangar 1

Waterford, MI

Contact: PATRICK MICHAEL RYAN

(734) 487-7455

Patrick.M.Ryan@faa.gov

Select #: GL23125622

FPM PATRICK MICHAEL RYAN n/a

Teaching Points:

The Indoor Airport is an educational outreach tool that brings airport operations to life. The Indoor Airport has two runways, taxiways, a ramp area and uses current airport signage. It can be used with students as well as seasoned aviators to expand their knowledge of ATC communications, aircraft movements and how runway incursions happen. Scenario based training is used to demonstrate critical airport safety concerns such as runway incursions. The Indoor Airport gets everyone involved in understanding airport safety by allowing attendees role play during the analysis of selected scenarios.

Via personal vehicle - parking next to Hangar

Fly-in: Call Pat Ryan ahead of time to coordinate available ramp space
