

**All participants are welcome including Police, Fire, EMS (all levels) and Pilots.**

This presentation is being jointly offered by the FAA FAASafety Team (FAAST) and AVP-110, FAA Office of Accident Investigation and Prevention.

This is a **FREE two-phase** program offering the **2025 newly updated webinar course, (Phase I)**, which includes a wide variety of knowledge on aviation emergencies for first responders. Full of new cases, it is a well-rounded training program. Included are suggestions on securing a scene, scene safety AND preservation and the unique hazards that come with aviation accidents. Medical topics will include considerations for stabilizing, extricating, and handling the occupants. We will learn about aircraft familiarization and unique cases such as hot air balloons, sky dive injuries, military aircraft and rotorcraft. Understanding aircraft stabilization, egress procedures and aircraft entry procedures are a perfect lesson for all specialties to indulge in. This is a fast paced, multi-faceted training complete with live presenters, detailed slides and video-based training. Lead instructors from the industry will be presenting the material.

Completion certificates will be issued, which can be submitted during renewal for your certificate or training credits for all participants based on their specialty.

***(CEU credits of 4 OEMS credit hours can apply. For Pilots FAA WINGS Credit can be granted.)***

#### **Phase I (Free)**

We are offering two sessions: (you only need to attend one!)

**PRESENTATION OFFERING #1:     Wednesday, April 16, 2025, 10:00-14:00 ET**

**REGISTER HERE:** [https://faavideo.zoomgov.com/meeting/register/NsksZtoKSGycOoo-y\\_xg6Q](https://faavideo.zoomgov.com/meeting/register/NsksZtoKSGycOoo-y_xg6Q)

**Register in advance for this meeting** After registering, you will receive a confirmation email containing information about joining the meeting.

**Or**

**PRESENTATION OFFERING #2:             Wednesday, May 14, 2025, 10:00-14:00 ET**

**REGISTER HERE:** <https://faavideo.zoomgov.com/meeting/register/F7W1RPNSQYGdJ6Xui41zDQ>

**Register in advance for this meeting.** After registering, you will receive a confirmation email containing information about joining the meeting.

After completing this course, all participants will be eligible for **Phase 2 (Free)**, which will be a hands-on, live portion **at a Willow Run Airport (KYIP) on June 24, 2025, from 8 am to about 4 pm.**

(Exact location to be announced in advance) We will collaborate with local pilots, aircraft operators and airport managers to make these sessions happen alongside an in-person training to touch, feel and experience egress and shut down procedures in a variety of aircraft. These offerings will fill up quickly, so please register promptly!
