

EAA Chapter 333 IMC VMC Club

EAA VMC/IMC Club provides a "hangar flying" experience organized around visual or instrument flight, in order to promote safety, education and proficiency.

Every meeting consists of a scenario presentation and group discussion about unusual or interesting charts, changed rules or procedures, and member experiences. We also have occasional guest speakers and snacks!

The scenarios we will discuss at this meeting are as follows: For the VMC presentation, "Deer Crossing", focus will be on Basic Flying Skills and Go-Arounds. The IMC presentation, "Dark Approach", will focus on Basic Flying Skills and Weather.

Bring your EFB, your experience, and your questions and be ready to participate.
