

East Michigan Flight Standards District Office Monthly Safety Meeting October 2025

Event Details

Don't get FIT to be tied, and don't get needlessly Wired up.

Operations Focus will be on emphasizing the need for training and currency when flying in mountainous areas.

Teaching Points:

- Pilots of all certificate levels are prone to CFIT accidents.
- Most General Aviation CFIT accidents occur during the day and half occur in VMC.
- Pilots must accurately assess the risk associated with each flight and plan accordingly. They must also continuously reassess risk en route and commit to alternate plans before they are in a state of emergency.

Tue, Nov 18, 2025 at 10:00 EST

JDV Conference Room

6500 Highland Rd

Waterford, MI

Select #: GL23140110

FPM Patrick RYAN n/a

Airworthiness Focus - Aircraft Wiring 101 for pilots. Pilots will learn about visually inspecting wiring for degradation. Mechanics attending will receive a refresher on wiring and relay (pun intended) situations encountered to share with pilots.

Today's presentations will take two hours.

Via personal vehicle - ample parking in terminal parking lot.

Fly-in: park on ramp as directed by ATC.
