

EAA Chapter 113 IMC VMC Club Meeting

VMC Club Topic Will be 'Bumpy Final' and the IMC Club Topic Will be 'Surprises at Night'

The EAA IMC Club provides a "hangar flying" experience organized around visual flight, in order to promote safety, education, and proficiency.

Every meeting consists of a scenario presentation and group discussion about unusual or interesting charts, changed rules and procedures, and member experiences. .During a night IFR flight in actual IMC in the Midwest, our pilot encounters what appears to be unexpected turbulence, and also notices some odd behavior by the autopilot. If you were in this situation, what precautions could you take, and what would you do if things got worse?

All are welcome. You do not need to be an EAA member to attend.
