

DATE September 2026

## Summary:

The EAA IMC Club provides a "hangar flying" experience organized around visual flight, in order to promote safety, education, and proficiency.

Every meeting consists of a scenario presentation and group discussion about unusual or interesting charts, changed rules and procedures, and member experiences. We also have occasional guest speakers.

The scenario titled "Hard to Find" is inspired by an actual flight as follows:

You are flying a night IFR flight in a Beech Sierra to an unfamiliar airport. Fuel is running low, and you're having trouble spotting the airport. What can you do to ensure that you make it to your destination safely?

Join in the discussion. Give us your opinion. You may be surprised at how many ideas the group will have and have some fun, learning at the same time! Please join us and tell us "What would you do?".

Bring your EFB, your experience, and your questions, and be ready to participate.

All are welcome. You do not need to be an EAA member to attend.
