

Double Feature - GAJSC Topic of the Month Presentation

The General Aviation Joint Steering Committee (GAJSC) and your local FAA Safety Team (FAASTeam) are working together to present a monthly topic that improves aviation safety.

June's topic is "Transition Training". Also, as a double feature, July's topic of "Managing Unexpected Events" will be presented in advance. This seminar will promote education and outreach to include NTSB accident data suggesting that pilots with low time in type are more likely to crash. The GAJSC is working to improve General Aviation safety through data driven risk reduction efforts that focus on training, education, and outreach.

Directions: Event will be held in the main terminal building. For detailed driving directions, please use internet software such as GoogleMaps, MapQuest, Rand McNally, or similar.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
