

FAASTeam presents:

Loss of Control - Upset Recovery and Stall Spin Avoidance

John Dye, owner of Bad Attitude Aviator Training Company will give a presentation on Upset Recovery and Stall/Spin Avoidance. John has given his presentation in Oshkosh for several years and for Eclipse Jet, Kent State and the Cleveland FSDO Air Safety Inspectors. For most of the last decade, loss of control-in flight (LOC-I) crashes have been responsible for more fatalities than any other aviation accident category.

To mitigate Loss of Control accidents, Discover Aviation Center is hosting John Dye, Owner of Bad Attitude Training Company. The Safety Seminar will offer valuable information to even the most seasoned aviator. You are also encouraged to continue your education after the safety seminar by working with Bad Attitude in your own aircraft.

Directions: For turn-by-turn directions, please use internet software such as GoogleMaps, MapQuest, Rand McNally, etc.

When you enter the airport, Discover Aviation Center is at the far West row of hangars in the Northeast corner of the airport. Please follow the posted signs.

Visit discoveraviationcenter.org for more information.
