

ECOPA Air Safety Seminar-February 2018

Join us for an informative ADS-B seminar led by Brian Babik from Appareo. Learn more about ADS-B for your type of aircraft and understand what is important when choosing the right ADS-B option to comply with the 2020 mandate. Compliance with the regulations for installing ADS-B in your aircraft and how it installs to keep you regulatory compliant. Brian will provide tips on how to get the most out of ADS-B information, important features to look for, and in/out solutions and how to use Appareo full functionality. This class will educate the pilot on usage and interface of the Appareo system.

Directions: Seminar is in the Library; please see Google maps for additional directions.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
