

## ECOPA Air Safety Seminar-February 2019

Time is almost up. The 2020 ADS-B equipage deadline is almost here. Join us for an informative ADS-B seminar led by Brian Babik from Appareo. Learn more about ADS-B for your type of aircraft and understand what is important when choosing the right ADS-B option to comply with the 2020 mandate. Compliance with the regulations for installing ADS-B in your aircraft and how it installs to keep you regulatory compliant. Brian will provide tips on how to get the most out of ADS-B information, important features to look for, and in/out solutions and how to use Appareo full functionality. This class will educate the pilot on usage and interface of the Appareo system.

**Directions:** Seminar is in the Library; please see Google maps for additional directions.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Join us on Facebook: <https://www.facebook.com/groups/GASafety/>

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
