

Operation Raincheck Cleveland ARTCC

Participants will be given a briefing from current controllers and managers on the history and operation of enroute air traffic facilities and specifically Cleveland ARTCC (ZOB) as well as VFR and IFR concerns when flying in controlled airspace. They will then be escorted throughout the facility to view the Traffic Management Unit (Flow Control), Center Weather Unit (NWS), Service Operation Center (Technical Operations), and the Operational Control Floor (ATC).

Directions: Visitor parking is located outside the fence near the guard shack. All participants will need to go through security. To expedite the process please leave all valuables in your vehicle and bring only your photo ID and keys through security. No cameras or cell phones permitted. All participants must be U.S. Citizens with valid government issued photo ID.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
