

FAASTeam presents:

Weather on the Web

Join me as I use weather resources on the web on the days leading up to a 'must attend' event. I'll be deciding if I can fly my wife and I in our plane or if I have to make a 12-hour drive to our grandson's graduation.

Todd has been using this weather gathering process for years.

Our speaker, Todd Fisher, ATP multi, commercial ASEL & LTA-HAB, CFI/IASEL/AMEL, Advanced Ground Instructor is a self proclaimed weather nerd. He taught Aviation Weather for several semesters at Kent State University. As with all Balloon pilots Todd has a unique perspective on aviation weather. You will not want to miss this.

Directions: Free parking come to the room in the back
