

EAA Chapter 846 VMC Club

All general aviation pilots are required to undergo a recurrent evaluation of their skills every two years. Have you worked with a flight instructor and come up with a specific review for you and your aircraft? How did an instructor conduct an effective evaluation for you? What ground training options are available to you? We will discuss these and other options available to pilots for meeting this requirement. Various aspects of ForeFlight will be covered, as well as the FAA General Aviation Joint Safety Committee topic of the month.

We will meet in the classroom in the terminal building at Skypark Airport.

A message from the National FAASTeam Manager
