

EAA Chapter 846 VMC Club

What personal habits do you rely on to keep every flight a safe one? What do you do, every time, to make sure the flight goes safely — and what's the best habit you've borrowed from someone else in the cockpit? Have you seen someone skip a step or two in their preflight or during a flight? Many pilots hope to fly an error-free flight. Has anyone ever flown a perfect flight? Let's share good and bad practices with everyone.

Flying safely isn't a single decision, it's a hundred small ones. We will take a closer look at the tools ForeFlight offers to make those decisions with better information, from weather and hazard awareness to emergency preparedness and staying current.

We will meet in the classroom in the terminal building at Skypark Airport.
