

2015 Annual Pilot & Airport User Meeting

Catch up on the latest security concerns and requirements. Also hear what a local FAA Designated Medical Examiner (DME) has to say about new changes with obtaining FAA medical certificates. In addition, learn from a local FAA Designated Pilot Examiner (DPE) how to prepare for your practical exam. Now is your chance to ask questions and get the answers you need. Find out what's going on at the Rapid City Regional Airport <http://www.rcgov.org/airport>. This event also includes information from the Runway Safety Action Team (RSAT).

Directions: This meeting will take place at the Rapid City Regional Airport Fire Station Conference Room. Once you turn off Highway 44 north toward the airport, keep driving straight ahead and continue past the traffic light up the hill toward the general aviation hangars. The Fire Station #8 will be on your right and parking is available in front of that building.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!
