

South Dakota FAASTeam presents:

# **FAASteam Evening Safety Seminar**

The General Aviation Joint Steering Committee (GAJSC) selects a Topic Of The Month (TOM) based on analysis of accident and incident data that shows a risk factor. This November TOM is "Engine Maintenance Monitoring". As an aircraft owner/operator, you are responsible for making sure the aircraft is maintained in accordance to the regulations. This means proper logbook endorsements and supporting documentation.

Come join us as we listen to three guest speakers discuss Part 43 as it relates to aircraft maintenance, airworthiness directives, and general preventative maintenance measures. For those attending who are active participants in the FAA WINGS/AMT Proficiency Programs, this will provide you credit toward a basic or advanced phase level.

**Directions:** This safety seminar will take place at the Rapid City Regional Airport Fire Station #8 Building in the Conference Room. Once you turn off Highway 44 toward the airport, keep driving straight ahead and continue past the traffic light up the hill toward the general aviation hangars. The Fire Station #8 Building will be to your right and parking is available in front of that building. If flying into the airport, aircraft tie-downs and fuel services are available.

## Event Details

**Tue, Nov 28, 2017 - 19:00 MST**  
**Rapid City Regional Airport Fire**  
**Station #8**

4440 Kitty Hawk Road  
Rapid City, SD 57703
