

South Dakota FAASTeam presents:

FAASteam Evening Safety Seminar

The General Aviation Joint Steering Committee (GAJSC) selects a Topic Of The Month (TOM) based on analysis of accident and incident data that shows a risk factor. This December TOM is titled "Full Authority Digital Engine Control (FADEC)".

In addition, we will be discussing Uncontrolled Airport Operations. There are many things to keep in mind when flying into an uncontrolled airport environment where there is no operating control tower. Runway conditions, traffic pattern procedures, loss of radio, NOTAMS, and surface operations are just a few things we will be discussing.

Come join us as we share experiences and learn from past mistakes.

Directions: This FAASTeam Safety Seminar will take place in the formal administrative conference room on the 2nd floor at the airport main terminal building.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASteam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
