

## South Dakota Aviation Symposium - Briefing 3

This 50 minute pilot briefing will help pilots better understand our National Oceanic and Atmospheric Administration (NOAA) and the services available. Hear what the expert wants you to know and learn more about the latest aviation tools that can help determine safe flight routes.

**Directions:** This briefing is part of the South Dakota Aviation Symposium. This annual event is split between pilot and mechanics. You are welcome to join for any or all of the sessions that will run throughout the day. The five pilot briefing sessions will be upstairs at the SDSU Aviation Flight School Facility, Brookings Airport and the mechanics training (inspector authorization renewal course) will be in the main SDSU hangar at the Brookings Airport.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.

### Event Details

**Thu, Mar 15, 2018 - 15:00 CST**

**SDSU Aviation Facility**

201 West 2nd Street South

Brookings, SD 57006
