

South Dakota FAASTeam presents:

FAAFTeam Afternoon Safety Seminar

In today's world of technology there are so many resources available, it can be difficult to figure out which sources are the best for current information. Come join us as we look at many online websites available for use.

In addition, we will hear from Virgil A. Lenling who will discuss the dangers associated with flying under Visual Flight Rules (VFR) into deteriorating Instrument Metrological Conditions (IMC). Mr. Lenling has gained many years of valuable instructing as a Certified Flight Instructor, he is also a FAA Safety Team (FAASTeam) Representative. What better way to learn than from someone who has "been there, done that".

Join us as we present Mr. Lenling the 2018 South Dakota FAASTeam Representative of the Year Award.

Congratulations Virgil !!

Directions: This FAA Safety Team (FAASTeam) Afternoon Safety Seminar will take place at the airport main hangar building.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
