

South Dakota FAASTeam presents:

FAASteam Evening Safety Seminar

The General Aviation Joint Steering Committee (GAJSC) reviews information relating to general aviation accidents and incidents. This information is then used as a "Topic of the Month" (TOM) for presentations and discussions which help raise greater awareness. The TOM for April is Angle of Attack (AOA).

There are also many websites that pilots don't know about and provide a great resource. We will take a look at several websites you may or may not know exist.

In addition, we will learn specific details from Jeffry R. Boe, Airworthiness FAASTeam Program Manager on how to determine the airworthiness of an aircraft. Often times pilots do not conduct a complete pre-flight inspection which can result in unwanted events. Looking for maintenance issues is a very important part of pre-flight activity.

Our special guest speaker will be Rich Krokell, Transportation Director for the Aberdeen Regional Airport. Mr. Krokell will be providing overview on the following topics: Wildlife Hazard Analysis and Management Plan Master Airport Planning and Projects Seasonal Events. Come join us as we all share experiences and contribute to a positive safety culture.
