

South Dakota FAAS Team presents:

# Ground School Refresher Course

What better time for pilots than sharing aviation experiences to help create a Positive Safety Culture. A big part of risk management is "Expanding Horizons" to help identify, assess, and prioritize risks.

Looking at the risks and being pro-active with greater awareness is an important component of having a Positive Safety Culture. A Positive Safety Culture does not come in one size, shape, or color - it is a reflection of the people and organizations that make it all happen every day. Come join Denny Martens (FAASTeam Representative) as he reviews so many of the basics every pilot must know. Instructor Martens is an experienced pilot and certified flight instructor with many years of valuable knowledge. What better way to learn, than from someone who has been nominated to receive the FAA Wright Brothers Master Pilot Award and has an ongoing passion for aviation safety.

This three-hour ground school refresher course will cover the following: Understanding ADS-BCold Weather Operations Accident/Incident Reporting (Part 830) Legal Aircraft Requirements Legal Pilot Requirements Aircraft Performance GPS Operations Airspace Operations & Requirements General Aviation Airport Operations Radio Communications Proper

## Event Details

**Sun, Feb 26, 2023 - 13:30 CST**

**Airport Terminal Building**

700 East 31st Street

Yankton, SD 57078
